Bring this catalogue to life!

Introducing a new innovative way of advertising - Visualife AR.

Throughout this catalogue are products that come alive when scanned using your smartphone or tablet using augmented reality.

With Visualife AR, your world can come to life in a very unique way!

-  **Download the FREE App**
Search for Visualife AR on the Apple App Store or Google Play.
-  **Create a login**
Signing in will allow your scanned history to be stored for you to revisit.
-  **Start scanning Visualife enabled adverts**
Scan within the crosshairs when you see the Visualife icon and watch the products come alive.

YESSS ELECTRICAL

TRADE CREDIT APPLICATION FORM

Checklist before sending:

- ☐ For Limited Companies: Company letterhead.
- ☐ For Sole Traders/Partnerships: Proof of your home address, such as a bank, building society, credit card statement, or a recent utility bill.
- ☐ Have you filled in your required credit limit?
- ☐ Have you provided your trade references?
- ☐ Have you signed the application form?

Send via post or email to:
YESSS Electrical, YESSS House, Foxbridge Way, Normanton, WF6 1TN
tradeapplications@yesss.co.uk

What happens next?
Once your application has been processed, usually within five working days, we will provide you with written confirmation of your credit limit and account number. This will confirm that your account has been activated.

COOL / DAYLIGHT

Need to show off the fine details? Then a cool daylight lamp is the one for you. Perfect for Museums, Galleries and Retail as it helps to make the environment look clean and welcoming.

COOL WHITE

This type of light will help you to create a neat, clean and efficient environment. Your workforce will feel more alert and this should increase both yours and their productivity.

NEUTRAL WHITE

Looking to make that mid week meal pop? Then a white light is great for a kitchen and will make your cooking experience that little bit brighter!

WARM WHITE

Need something not as intense but still gives you a warm and toned light? Colour schemes often seen in the home today are complimented and enhanced by a warm light. Great for the living room!

EXTRA WARM WHITE

This type of light is perfect for creating a friendly, personal and intimate setting. It would look great in a bedroom, living room or even a restaurant.

Three easy ways to control:

1. App Control

Define and name rooms, create scenes. Dimming and colour temperature control.

2. Remote Control

Individual and group control. Dimming and colour temperature control.

3. Light Switch

Switch between warm white, neutral white and cool white.

LUXNAControl
AUTOMATE YOUR WORLD

Applications:

- Use in the home to dim the light intensity and change the colour temperature, creating beautiful moods and ambiance to suit your personal taste.
- Use in any commercial application including hotels, restaurants and offices to stimulate the senses and add style to the architectural surroundings.

Features:

- Adjustable LED light intensity with a standard dimming range from 100% to 5% including Night Light mode which is 2% of the maximum brightness.
- Control the colour temperature of the LED lighting with ease, choose from:
 - **Warm White 3000K** - Perfect for promoting relaxation whilst creating a friendly or intimate setting.
 - **Neutral White 4000K** - For a natural ambiance to compliment décor and enhance interior features.
 - **Cool White 6000K** - Be alert and increase productivity. Ideal for a clean, fresh energising feel.
- Easy to use, simple to install and setup.

YESSS LIGHTING DESIGN SERVICE

Case Study: Drax Power Station Main Turbine Hall

Project Brief

Drax wished to continue investing in innovative technology reducing their Carbon emissions further by utilising LED technology inside their Turbine Hall.

The impressive Turbine Hall houses six massive turbine generators each generating 660MW of power. The Turbine hall is 426m in length and 24m in height with complex multiple levels for access to machinery.

The main lighting was provided by 169 x 1000W Sodium Lamps mounted at 22m high and is switched on 24/7 all year round. The output of these luminaires had significantly deteriorated over time. The lighting can only be maintained and accessed via the overhead cranes which then require erection of scaffolding on top to further access the luminaires. Access and maintenance of the luminaires is also restricted due to safety documents, crane usage and other ongoing maintenance in the Turbine Hall. However all this needs to be taken into account and precise planning to ensure the maintenance can be carried out in preparation of the annual major outages. This maintenance requires contribution from a staggering number of people – 30! Drax therefore required a reliable fit and forget LED solution that they could trust whilst offering substantial energy and carbon savings.

Further to the Turbine Hall lighting Drax also looked to cascade this innovative technology to their 2 Gas Turbine Halls which were originally provided by a combined 52 x 400W Sodium Lamps – 22 in the South Gas Turbine Hall and 30 in the North Gas Turbine Hall.

Solution

Through close partnership with Drax power station and YESSS Electrical, a solution was engineered to solve the historic issues of challenging maintenance planning and immense energy consumption whilst enhancing the ambient light levels from a difficult height of 22 metres. Through this solution a reduction was made from 160 kilowatts to 40 kilowatts, giving increased lighting levels in crucial maintenance areas whilst ensuring maximum reliability and safety.

A common factor in LED lighting is that the LED Driver is usually the weakest part of any lighting design. Here at YESSS Electrical we chose to work with a UK manufacturer who utilised years of experience in electronics design and manufacture their own LED Driver and Light Engine resulting in a product of the highest quality and reliability. The driver is designed with a mean time between failure (MTBF) of 93,000hrs closely matching the LED Lumen Maintenance lifetime of 100,000hrs to L70.

Due to the supplementary lighting around the Turbine Hall we selected the 210W High Bay with a 50° optic which is ideal for applications that are of substantial height. This allows the emitted light to be projected on to the floor level rather than dispersed around the Turbine Hall.

ENERGY SAVING %	ENERGY SAVING P.A.	CARBON SAVING P.A.	LED LIFETIME
84%	1,854 MW	973 Tonnes	11.4 Years

Working with all leading manufacturers

- Independent advice and client support
- Energy saving solutions
- Return on investment calculations
- Latest design software technology

OR ONLINE

Viva-City Pro

- High performance
- Modular design
- Power 15W-180W
- Luminaire Lumens 1,995-22,900
- Luminaire efficacy up to 135 Lumens/W
- Post-top or side-entry 60mm

Italo Series

- Functionality, versatility and a wide variety of optics
- Luminaire Lumens 1,540 - 31,560
- Power 15.5W - 306W
- Post-top or side-entry 60/76mm
- Dimmable multi-chip LED
- Tool-less entry

Auriga

- Functional & contemporary
- Luminaire Lumens 1,900 - 5,700
- Power 20W - 150W
- Side-entry, post-top or stirrup version
- Asymmetric optic, Photocell and Dimming option

Sloane 2.0

- Effective Light Distribution
- Ideal for large area amenity applications
- Luminaire Lumens 3,656
- Power 60W
- Post-top 76mm
- Symmetrical optic and Photocell options

Columns

- Experts in columns
- Over 25 years' experience
- Column calculation facility to help you specify
- Support to match the columns with luminaires and brackets

Maintained Stock Levels

- Maintained stock levels
- Extensive stock of most columns held at Kingfisher warehouse
- In-house fabrication and finishing options

Contrac
Lighting

Lando LED Lowbay

- Developed to replace traditional H.I.D low and high bay luminaires with efficacies of up to 154 luminaire Lumens per watt
- Ideal for mounting heights of between 4 and 20m
- Minimum 50% energy savings compared to conventional light sources with reductions in maintenance costs
- Aluminium high output reflectors
- Clear polycarbonate panel fitted
- Complete with GST panel mounted plug
- Body constructed from powder coated zinc steel
- L70 B50 life rating at 70,000hrs
- Tridonic/Philips 5 year system warranty

Lighting

Organa Linear LED Fitting

- Contemporary designed linear luminaire ideal for retail shelving environments
- Exceptional efficacies of up to 151 luminaire Lumens per watt
- Body constructed from powder coated zinc steel
- Supplied with either narrow or medium beam lens
- L70 B10 life rating at 60,000hrs
- Tridonic/Philips 5 year system warranty
- Suitable for suspension or trunking mount
- Colour temperature 4000k CRI>80
- Dimmable and/or movement and daylight sensing
- High transmission opal panel
- IP20 rated

visualite

Visualise your world

What is Visualite?

...Simply revolutionary. Powered by spectacular edge light technology and supplied with a vast array of stunning visuals, our new range of Visualite systems create an amazing lighting effect and ambience, incorporating the light source and bespoke image into one.

As well as choosing from any of our beautiful high definition images we can also incorporate your own images and artwork to provide the personalised product which you desire. Feel the warm embrace of daylight shining down from the ceiling with the magnificent blue-sky scene, or gaze across iconic landscapes no matter where you are. Years of continuous development now enable us to be ahead of the game, providing exciting simulations fit for any scenario.

- Hospitals and other medical environments
- Retail and leisure
- Car showrooms
- Commercial offices
- Education
- Sport stadiums
- Basements
- Boardrooms
- Homes

The list is endless. Whatever your scenario, we have a solution.

EATON

NEW Type B TPN Distribution Boards

- Welded 'case end' design board with removable gland plates provides super 'stiff' construction
- Construction virtually eliminates distortion during installation, ensuring final assembly fit and alignment
- Unique cable trunking interface kit simplifies mounting of cable trunking and protects cables
- Improved Neutral cable clamp design for simple and secure cable connection
- Unique 'full form' blanking modules provides secure shrouding of unused busbar stabs for increased safety
- Removable busbar assembly to assist installation
- Auto-formed, curved construction of main cover adds to board rigidity, with improved appearance

NEW 2 Position Plastic (IP65)

- CE Certified
- IP65 rated when installed
- Green / Red / Green + 1N/O + 1N/C

£14.³⁶ Ex.VAT

Price Inc. VAT (£17.23)

PART NO. ERS2PGR

NEW Metal Enclosed Emergency Stop Stations (IP65)

- CE certified
- IP65 rated when installed / Rated up to 240V at 10A

£36.⁵⁹ Ex.VAT

Price Inc. VAT (£43.91)

PART NO. ERS1MTES

NEW 3 Position Plastic (IP65)

- CE Certified
- IP65 rated when installed
- Green / Red / Green + 2N/O + 1N/C

£21.⁸⁴ Ex.VAT

Price Inc. VAT (£26.21)

PART NO. ERS3PGRG

NEW 1 Position Plastic (IP65)

- CE Certified
- IP65 rated when installed
- Includes Legend plate stickers with each control station
- Key Removable in ON & OFF + 1N/O

PART NO. ERS1PK2P

£11.⁵¹ Ex.VAT

Price Inc. VAT (£13.81)

NEW Circuit Transformers

- Multi-tapped primary
- Centre tapped secondary
- Insulation between windings
- Short duration surge load capacity
- 50/60Hz operation
- Varnish impregnated windings
- Touch proof terminals
- RoHS Compliant
- Input: 230V / 400V
- Output: 12V / 24V / 48V / 110V / 240V
- Supply Tolerance - +6% -10%
- Primary Taps - +15V / 0V / -15V / 230V / 400V
- Input Connection - Terminals for 0.5 - 4.0mm²
- Insulation Class - B
- Isolation Class - 1

FROM ONLY

NEW 35mm Top Hat Slotted Din Rail

- 2 metre lengths
- 35mm x 7.5mm depth

PART NO. ERSTH35S

£3.¹³ Ex.VAT

Price Inc. VAT (£3.76)

NEW DIN Rail Terminal Blocks with Screw Connection

8 Pin 10A DC General Purpose Plug-in Relay DPDT

- Available in 12V & 24V
- Plug-in - 2 pole, 10A - DC - AgNi - Lockable test button + mechanical indicator
- Type: Plug-in
- No. of poles: 2 pole, 10A
- Coil version: DC
- Contact material: AgNi
- Contact circuit: CO (nPDT)
- Options: Lockable test button + mechanical indicator
- Special version: Standard
- Sockets: 90 Series

ONLY
£10.22 Ex. VAT

8 Pin DIN Rail Socket for 60.12 with Metal Retaining Clip

- 8Pin DIN Rail Socket for 60.12 with Metal Retaining Clip
- For relays 60.12, 88.12 - Screw terminal (Box clamp) socket panel or 35 mm rail mount
- Type: for relays 60.12, 88.12 - Screw terminal (Box clamp) socket panel or 35 mm rail mount
- Accessories: Coil indication and suppression modules

£4.15 Ex. VAT
Price Inc. VAT (£4.98)

PART NO. 90.20SMA

11 Pin DIN Rail Socket for 60.13 with Metal Retaining Clip

- 11Pin DIN Rail Socket for 60.13 with Metal Retaining Clip
- For relays 60.13, 88.02 - Screw terminal (Box clamp) socket panel or 35 mm rail mount
- Type: for relays 60.13, 88.02 - Screw terminal (Box clamp) socket panel or 35mm rail mount
- Accessories: Coil indication and suppression modules

£4.63 Ex. VAT
Price Inc. VAT (£5.56)

Meter Tails (6181Y)

Annealed Copper Conductor / PVC Insulated / PVC Sheathed. 300/500V

- Single Core 1.0mm² to 35.0mm² available
- Available in blue/grey and brown/grey (other colours upon special request)
- Other length reels available upon special request
- Manufactured to BS 6004:2012 Table 3
- BASEC Approved
- Also known as double insulated, tails and meter tails
- Designed for use in light industrial and domestic wiring. These cables are particularly suited for installation as meter tails and are intended for fixed installation in dry or damp premises
- These cables can be installed in conduit, in cable trunking and in cable ducting. Where there is deemed little risk of mechanical damage these cables can be clipped direct, on cable tray, embedded or in free air. These cables are not intended to be laid underground

Doncaster Cables

Ordinary Duty Round Flex

Plain Annealed Copper / PVC Insulated /
PVC Sheathed Flexible Cord - Ordinary Duty

- 2 Core 0.75mm² to 2.5mm²
- 3 Core 0.75mm² to 6.0mm²
- 4 Core 0.75mm² to 6.0mm²
- 5 Core 0.75mm² and 2.5mm²
- Available in white and black (certain sizes in orange, other colours upon special request)
- Other length reels available upon special request
- Manufactured to BS EN 50525-2-11:2011 Clause 4.2, Table B.2.
- BASEC Approved (up to and including) 4.0mm²
- Ordinary duty cords/flexibles are used where the risk of mechanical damage and mechanical stresses is normal, i.e. when cables are subject to low mechanical stresses in the areas of application, and the risk of mechanical damage is low, as is the case to be expected in the normal use of small to medium size equipment in domestic and commercial as well as in light industrial premises
- Examples of appliances that need ordinary duty cables include vacuum cleaners, toasters, washing machines, refrigerators, dryers and televisions

Bellwire BRITISH MADE CABLE

Solid Copper Conductor / PVC Insulated. Figure of 8

- Available in white, 100 metre reels (other lengths available upon special request)
- For circuits not exceeding 50 volts ac or 75 volts dc
- Each conductor consists of 1 solid strand of 0.67mm copper. The conductors are laid side by side and insulated in a white PVC. This creates a flat figure of 8 configuration
- This cable is primarily designed for use in connecting door bells and chimes. However, electricians have also found this cable suitable for other applications where extra-low voltage (less than 50V) is being used.

SY Steel Wire Braid Armoured Flexible PVC Control Cable

Plain Annealed Flexible Copper Conductors / PVC Insulated / PVC Bedding / GSWB (Galvanised Steel Wire Braid) / PVC Sheathed. 300/500V

- 2 Core 0.75mm² to 1.5mm²
- 3 Core 0.75mm² to 16.0mm²
- 4 Core 0.75² to 35.0mm²
- 5 Core 0.75mm² to 35.0mm²
- 7 Core 0.75mm² to 4.0mm²
- 12 Core 0.75mm² to 2.5mm²
- 18 Core 0.75mm² to 2.5mm²
- Available in clear
- Cut to length
- Manufactured generally to BS EN 50525-2-11:2011
- Also known as armour flex
- The cable is designed to be used as interconnecting cable for measuring, controlling or regulation in control equipment for assembly and production lines, conveyors and for computer units. It is commonly used in a wide number of industries including building and construction, rail and transport infrastructures, transmission and automation and process control
- This cable is also used by electricians in certain fixed installations where only light mechanical stress may occur. This cable can also be used outdoors (but should be protected); however, it is best suited to dry or moist conditions indoors

YY PVC Insulated & Sheathed Flexible Control Cable

Plain Annealed Flexible Copper Conductors / PVC Insulated / PVC Sheathed. 300/500V

- 2 Core 0.5mm² to 2.5mm²
- 3 Core 0.5mm² to 10.0mm²
- 4 Core 0.5mm² to 25.0mm²
- 5 Core 0.5mm² to 16.0mm²
- Available in grey
- Cut to length
- Manufactured generally to BS EN 50525-2-11:2011
- The cable is designed to be used as an interconnecting cable for measuring, controlling or regulation in control equipment for assembly and production lines, conveyors and for computer units
- Due to the flexibility of YY cable, electricians commonly use YY for linking fixed and mobile equipment. If protected correctly electricians have found that YY can be useful in outdoor projects - however it is recommended and most commonly used for indoor projects in dry or moist conditions
- 7 Core 0.5mm² to 4.0mm²
- 12 Core 0.5mm² to 2.5mm²
- 18 Core 0.5mm² to 2.5mm²
- 25 Core 0.5mm² to 1.5mm²

Tri-Rated Switchgear and Panel Wiring Cables

Plain Annealed Flexible Copper / Heat Resisting PVC Insulated. 600/1000V.

- Single Core 0.5mm² to 120mm²
- Available in various colours
- Other length reels available upon special request
- Manufactured to BS 6231 Type CK, Underwriters Laboratory Listed. Conforms to subject 758 Appliance Wiring Material for Styles 1015, 1028, 1283 and 1284 where applicable and Canadian Standards Association approved. Complies with Standard C22.2, No.127, Type TEW
- BASEC, CSA and UL Approved
- These cables are intended for use in the wiring of switch, control, metering, relay and instrument panels of power switchgear, and for such purposes as internal connections in rectifier equipment and its motor starters and controllers. They are intended for use at alternating voltages not exceeded 600V to earth, and direct voltages not exceeded 1000V to earth
- When installed in the equipment they are suitable for wiring circuits for which the prescribed alternating test voltage does not exceed 4kV r.m.s for 1 minute
- By being approved to three international standards Tri-Rated cable is suitable for equipment installations required to meet both North American and European wiring regulations and codes of practice

FOR DETAILS

- Up to 35% energy saving against a comparable static storage heater
- ESICC (electronic management module) monitors use and automatically adjusts charging
- Weekly programming for time and temperature to enable maximum user comfort and control
- Programmer for control of charging days, i.e: Charge Sun-Thurs for output Monday to Friday and set to no charge / frost protection mode for weekends
- Five user selectable modes
- Industry leading thermostat, accurate to 0.1°C
- Delayed charging feature - regardless of percentage charge required, the Ecombi will always be 100% ready at the end of the charging period
- Superior level of insulation compared to a standard static storage heater
- Future-proof. Ecombi is ready to be directly connected with digital meters in the future, allowing electricity suppliers the capability to directly manage the system charging

nest

Nest Learning Thermostat, 3rd Gen

- No more programming
- Control it remotely
- Check your Energy History
- Save while you're away
- Control your hot water
- Know you're saving energy. Look for the Nest Leaf when you change the temperature
- The Nest Thermostat should be installed by a professional

PART NO. T3010GB

ONLY
£166.66 EX. VAT
EACH
Price inc. VAT
(£199.99)

Your home could be saving you energy. Keeping you safe. Connecting you to what matters most.

Nest products are built to work together seamlessly to help you manage your home. The Nest app can use your phone's location to turn on Nest Cam to keep an eye on your home when you're away. If the Nest Protect detects carbon monoxide, the Nest thermostat can turn off the boiler; a common source of CO leaks. And when the Nest Protect senses smoke, Nest Cam will automatically record an emergency clip.

Your home could be saving you energy. Keeping you safe. Connecting you to what matters most.

Nest products are built to work together seamlessly to help you manage your home. The Nest app can use your phone's location to turn on Nest Cam to keep an eye on your home when you're away. If the Nest Protect detects carbon monoxide, the Nest thermostat can turn off the boiler; a common source of CO leaks. And when the Nest Protect senses smoke, Nest Cam will automatically record an emergency clip.

Conventional Fire Panels

- C-TEC's award-winning CFP conventional fire panel is LPCB certified to the latest revisions of EN54 parts 2 and 4 and offers an array of user and installer-friendly features at a very competitive price
- Supplied in an attractive flush or surface mountable plastic enclosure, 2, 4 and 8 zone versions are available, each featuring four conventional sounder circuits, class change and alert inputs, on-board fire and fault relays and combined keypad/keyswitch entry
- Wide range of engineering functions including selectable zone delays, coincidence and non-latching zone facilities
- Comprehensive test and fault finding facilities
- Intuitive user-friendly interface with colour-coded buttons and combined keypad/keyswitch entry to access level
- Integral 1.5AEN54-4/A2 compliant switch mode PSU

8 ZONE AVAILABLE
FULL ADDRESSABLE SYSTEMS AVAILABLE

- Two open-collector outputs (Remote and Reset)
- Installer-friendly design accommodates easy first fix and straightforward maintenance
- Low 25mA quiescent current
- Ancillary system expansion connections provided for up to eight two-wire repeaters (one CFP761 network driver card required per system) and optional CFP relay boards
- Space for two x 12V 3.3Ahr VRLA batteries

17th Edition Wiring Regulations

- BS 7671 (The IET Wiring Regulations, 17th Edition) is the national standard to which all UK domestic and industrial wiring must conform
- The new standard, BS7671:2008 Amendment No 3, contains extensive changes to align with European documents
- The IET Wiring Regulations are of interest to all those concerned with the design, installation and maintenance of electric installations in buildings
- The market includes electricians, electrical contractors, facilities management companies, consultants, local authorities, surveyors and architects
- This book will also be of interest to professional engineers, as well as students at university and further education colleges

PART NO. 5696

Site Guide for Domestic Electrical Installation

- NICEIC and ELECSA have produced their most comprehensive on-site guide covering electrical installation work for use on electrical installations up to 100 A, including solar photovoltaic micro-generation
- The new book, which extends to over 300 pages, features the most up-to-date and relevant information for contractors undertaking electrical installation work on small installations, including those in domestic premises
- It provides guidance for carrying out the design, construction, inspection and testing of electrical installation work and is intended to promote good practice across the industry
- The information in the guide is based on the latest requirements of the 17th Edition Wiring Regulations, this being Amendment 3 to BS 7671:2008 - the national standard in the United Kingdom for low voltage electrical installations
- With chapters on RCDs, consumer units, remote isolation, labelling and works in special locations, the guide brings together the latest updates on regulations that every electrician will need to know, alongside clear and useful diagrams

ONLY

PART NO. 5617

Inspection Testing and Certification

- Even the most experienced Electrical Engineer sometimes needs help with Inspecting and Testing
- This newly revised book gives practical advice and guidance to questions which commonly arise during inspection and testing or during the preparation of certificates
- Now updated to reflect the changes to BS 7671: 2008 17th Edition 3rd Amendment

ONLY
£24.00 Ex. VAT
EACH
Price Inc. VAT
(£28.80)

PART NO. 5598

Snags 1 Earthing & Bonding

- This fully-revised favourite has been completely updated in line with the new 17th Edition 3rd Amendment of the IEE Wiring Regulations
- Snags and Solutions Part 1 contains fifty of the most common problems associated with earthing and bonding including amongst others the requirements for bathroom installations

PART NO. 5599

Snags 2 Wiring Systems

- This fully-revised favourite has been completely updated in line with the new 17th Edition 3rd Amendment of the IEE Wiring Regulations
- What are the changes to the colours of fixed wiring and how will it affect me? This book covers both single and three phase wiring systems

PART NO. 5611

Snags 3 Inspection & Testing

- Snags and Solutions Part 3 contains 50 of the most common problems associated with Inspection and Testing

PART NO. 5612

Snags 4 Emergency Lighting

- Contains guidance on the design, installation, inspection, testing, commissioning and maintenance of emergency lighting systems within domestic and similar premises

PART NO. 6802

Snags 5 Domestic Fire Detection

- Snags and Solutions part 5 provides guidance on the design, installation, inspection, testing, commissioning and maintenance of fire alarm systems within domestic and similar premises
- The intention of the book is to provide those responsible for the various elements of fire alarm system design, installation and maintenance, with a series of readily accessible solutions to many of the most common snags highlighted by those involved with fire alarm systems in domestic and similar premises

PART NO. 5614

Domestic Electrical Installation Condition Reports

- Electrical installation condition reports sold in pads of 20
- Now updated for the 17th Edition 3rd Amendment of the Wiring Regulations

£18.50 Ex. VAT
Price Inc. VAT (£22.20)

QFDS Premium Line SDS Plus Hammer Drill Bits

- Manufactured to top industry standards in Sheffield and are the only UK manufactured SDS Plus Drill Bits available in the market
- High quality steel ensures strength and durability
- Proven flute geometries enable maximum spoil removal, speed and penetration rates
- Centralised hammer grade tungsten carbide tip gives extended life and rounder holes in the hardest masonry materials
- Unique QFDS shank system gives almost instant location of the drill bit in SDS Plus machines.

Yellow 77® Wire Pulling Lubricant

- The No.1 brand of wire pulling lubricant
- Wax-based formula provides superior lubricity
- Safe to use with most cable types except low-density polyethylene and semi-conducting jackets
- Clings to cable throughout long pulls
- Won't break down or separate after repeated exposure to freezing temperatures
- 0.95 Litre

PART NO. 31-358

£6.00 Ex.VAT
Price Inc. VAT (£7.20)

General Purpose Silicone

- General Purpose Silicone is a mid modulus silicone sealant that adheres to most smooth and non-porous materials
- Contains an anti-fungal compound to prevent mould growth in areas of high humidity
- Forms a permanently flexible rubber seal
- 290ml

ONLY £2.34 Ex.VAT
EACH
Price Inc. VAT (£2.81)

PART NO.	COLOUR	EX. VAT	INC. VAT
GPSTR	Clear	£2.34	£2.81
GPSWE	White	£2.34	£2.81

Instant Nails

- High strength solvent free gap filling multi use adhesive
- Provides a quick grab and replaces mechanical fixings in many home improvement applications
- Dries white and may be overpainted if required
- 290ml

PART NO. INST

£2.45 Ex.VAT
Price Inc. VAT (£2.94)

Pinkgrip

- Sticks just about anything on a building site that needs sticking
- Amazing grabbing strength not only removes the need to pin under the workpiece to prevent slumping, but its revolutionary initial 'Direct Bond' eliminates the need for double stick methods
- Pinkgrip can be used inside and outside and adheres to just about every building substrate
- 350ml

PART NO. PINKGRIP

ONLY £2.44 Ex.VAT
EACH
Price Inc. VAT (£2.93)

Flexible Decorators Filler

- Fast drying, acrylic based filler and sealant that remains permanently flexible
- Can be overpainted with most paint types or covered over with wallpaper
- No sanding down is required
- 290ml

PART NO. FLEX

ONLY £2.33 Ex.VAT
EACH
Price Inc. VAT (£2.80)

Fix & Fill Expanding Foam

- Quick setting polyurethane based foam which expands greatly on application and yields up to 50 times original can contents
- Can be cut, sawn, plastered and sealed over after approximately one hour
- Fills irregular gaps, fixes framework, insulates and sound deadens
- 750ml

£5.50 Ex.VAT

Price Inc. VAT (£6.60)

PART NO. EVFF7

Firefoam B1 Handheld

- Quick-setting fire rated, one part polyurethane foam
- Expands on application to yield up to 50 times the can contents and meets the extremely stringent requirements of the test criteria BS476 Part 20; Class B1. Fire rated up to 4 hours in certain joint configurations
- 750ml

PART NO. EVFIRE

£7.85 Ex.VAT

Price Inc. VAT (£9.42)

One Strike Filler

- Fills most holes and cracks, even deep holes, in just one quick application with no need for secondary filling to level off
- No sagging or cracking
- Smooth finish, requiring little or no sanding and ready to paint in approximately 30 minutes
- 1 litre

£5.61 Ex.VAT

Price Inc. VAT (£6.73)

PART NO. ONE1

Jetcem Quick Set Patching Plaster

- High strength plaster in powder form which easily mixes with water to form a creamy lump free paste that is the ideal choice for most patching repairs
- Dries hard in one hour to a smooth finish which can be further sanded if desired
- With added PVA powder, this product will not shrink or crack and is strong enough to accept nails or screws

£10.89 Ex.VAT

Price Inc. VAT (£13.07)

PART NO. JETPATCH6

Cotton Dust Sheets

- Cotton twill, protect from spills, splashes and dust
- Strong hardwearing cotton resists wear from tools, stepladders and feet

ONLY £10.34 EACH Ex.VAT
Price Inc. VAT (£12.41)

PART NO. DUST

Roll & Stroll Premium Carpet Protector

- Self adhesive carpet protection system
- Easy to unwind, safer than dust sheets and has a multitude of uses across all trade sectors
- 600mm x 25m

£17.41 Ex.VAT

CATALOGUE TERMS & CONDITIONS OF SALE OF YESSS ELECTRICAL

(NB : DEFINITIONS APPEAR IN CONDITION 1B)

1. APPLICABLE TERMS

1.1. Any quotation given by the Seller to the Buyer in Writing is only an invitation to the Buyer to make an offer for the purchase of Goods from the Seller and no order placed in Writing by the Buyer with the Seller for the purchase of Goods in pursuance of a quotation from the Seller or without any quotation having been issued by the Seller or pursuant to an On-line Order or Order via the catalogue shall be binding on the Seller and the Buyer (and thereby constitute a contract between the Seller and Buyer for the sale and purchase of Goods) unless and until it is accepted ("Acceptance"); or (ii) by the Seller's acceptance in Writing of the Buyer's order; or (iii) by the issue by the Seller of an On-line Order Confirmation; or (iv) by the issue by the Seller to the Buyer of a dispatch note or delivery note for the Goods; or (iv) by virtue of the goods being dispatched by the Seller to the Buyer.

1.2. These Conditions are the only terms upon which the Seller offers and agrees to contract with the Buyer for the sale and purchase of Goods. Any contract made between the Buyer and the Seller for the sale and purchase of the Goods shall incorporate and be subject to these Conditions which shall govern such contract to the exclusion of any other terms and conditions subject to which any offer is made or purported to be made by the Buyer. In no case shall the Buyer's conditions of purchase apply to such contract.

1.3. Whilst every effort is made by the Seller to ensure that no such error or omission occurs, any typographical, clerical or other error or omission in any sales literature, catalogue, website based information, quotation, price list, acceptance of offer, invoice or other document or information issued by the Seller shall be subject to correction by the Seller at any time without any liability on the Seller's part. The Buyer acknowledges that the catalogue text, price lists, lists of items for sale or other sales literature published in this catalogue constitute an invitation to treat and may not be construed by the Buyer as any offer by or binding upon the Seller to sell any items to the Buyer.

1.4. Unless otherwise agreed in Writing, the Seller reserves the right to despatch or deliver Goods of a modified design (as a result of changes in the law or at the sole discretion of the Seller) provided that (i) any difference does not make the Goods unsuitable for any purpose the Buyer has made known to the Seller; and (ii) such despatched or delivered Goods shall be of equal or higher value to the Goods which the Buyer originally ordered.

1.5. The Buyer shall be responsible to the Seller for ensuring the accuracy of the terms of any order for Goods submitted by the Buyer to the Seller, and for giving the Seller any necessary information relating to the Goods within a sufficient time to enable the Seller to perform its obligations under these Conditions. The Seller shall incur no liability resulting from inaccurate information being supplied by the Buyer.

1.6. Subject to Condition 8.7.1 below, an order from the Buyer may not be cancelled by the Buyer after Acceptance except with the agreement in Writing of the authorised representatives of the Seller and on terms that the Buyer shall indemnify the Seller in full forthwith on demand from and against all loss (including loss of profit), costs (including the cost of all labour and materials used), damages, charges and expenses incurred by the Seller as a result of the cancellation (whether directly or indirectly) by the Buyer of that order.

2. PRICE

Unless otherwise agreed, the price of the Goods (which shall be shown in this catalogue or on the sales order acknowledgement document in respect of the Goods issued by the Seller to the Buyer) is exclusive of VAT and other taxes and the cost of carriage and is based on costs current at the date of publishing. The Seller reserves the right at any time prior to delivery of the Goods to adjust the price of the Goods to take account of:- (i) any increase in the costs to the Seller which is due to any factor beyond the Seller's control (including, without limitation, currency regulation, alteration of duties, taxes, increases in the costs of labour, services, transport, materials or other costs of manufacture or any foreign currency fluctuations which increase the costs to it of Goods imported into the United Kingdom); or (ii) any change in delivery dates, quantities or specifications for the Goods which is requested by the Buyer or (iii) any delay caused by any of the Buyer's instructions or the Buyer's failure to give the Seller adequate information or instruction. The Seller also reserves the right to increase the quoted or agreed prices for Goods if the Buyer's instructions are such that the Seller is required:- (i) to carry out work other than during normal working hours (normal working hours being Monday to Friday from 7am until 5:30pm and Saturday between 8am and - 12 noon); and/or (ii) to deliver the Goods to any location which is not either kerbside or on a ground floor location ("Standard Delivery Location").

3. PAYMENT

3.1. Unless agreed otherwise in Writing by the Seller (and subject to Condition 5 below) the price of the Goods shall be payable:-

3.1.1. In the case a Buyer who is a credit account holder with the Seller, on or before the 28th day (or first working day thereafter) of the calendar month following the month in which the Seller invoices the Buyer; and

3.1.2. In all other cases, on demand.

3.2. Where the Buyer has a trade credit account with the Seller, it is the date on which the Seller is ready to deliver the Goods the Buyer delays delivery of the Goods for any reason, the Seller may present invoices for full settlement within 7 days of that date.

3.3. Time for payment shall be of the essence.

3.4. In default of any payment on the due date and without prejudice to any other rights or remedies the Seller reserves the right to demand immediate payment of all outstanding balances owed by the Buyer to the Seller whether or not then due.

3.5. Interest (both before and after any judgement) shall be charged on outstanding balances due by the Buyer to the Seller at the rate of 2% per annum above Bank of England base rate from time to time (to accrue pro rata on a daily basis from the due date for payment

until the date of actual payment).

3.6. The Buyer shall not be entitled to withhold or set-off payment for Goods delivered for any reason whatsoever. The Seller may at any time, without limiting any other rights or remedies it may have, set off any amount owing to it by the Buyer against any amount payable by the Seller to the Buyer.

3.7. In the case of a Buyer who is a credit account holder with the Seller, the Seller shall be entitled in its sole discretion to suspend or terminate the Buyer's credit account if the Buyer fails to make a payment when it becomes due or if the Seller otherwise reasonably believes that the Buyer has failed or will fail to comply with the terms of the credit account.

3.8. The Buyer shall indemnify the Seller forthwith on demand from and against any legal or other expense incurred by the Seller in the collection of any sums outstanding from the Buyer to the Seller, including without limitation, legal costs and fees.

4. GUARANTEE

4.1. If the Buyer is a limited company, any director or directors who sign the Seller's credit account application form agree (if more than one, jointly and severally) to personally guarantee the payment of all monies, debts and liabilities of any nature from time to time due or owing from or incurred by the Buyer to the Seller (the "Guaranteed Obligations").

4.2. The guarantee in Condition 4.1 above is and shall at all times be a continuing security and shall cover the ultimate balance of all monies payable under the contract between the Seller and the Buyer for the sale and purchase of Goods, irrespective of any intermediate payment or discharge in full or in part of the Guaranteed Obligations.

5. CREDIT

Any contract between the Seller and the Buyer for the sale and purchase of Goods shall be subject to the provision that if at any time thereafter the Seller is advised or informed of circumstances casting doubt on the Buyer's credit worthiness or satisfactory security for payment is not given to the Seller by the Buyer promptly on request, the Seller may require payment of the whole or part of the purchase price for the Goods from the Buyer in advance and pending such payment the contract between the Seller and the Buyer for the sale and purchase of the Goods shall be suspended. In the event of such advance payment not being made within a reasonable period stipulated in Writing by the Seller, the Seller may cancel the Buyer's order without liability and the Buyer shall be responsible for any resulting loss to the Seller.

6. RISK

The risk in respect of all Goods sold under the contract between the Seller and the Buyer shall pass to the Buyer upon delivery to the Buyer or to the Buyer's order in any event the property in the Goods shall not pass to the Buyer except as provided in Condition 7 below.

7. TITLE RETENTION

7.1. Until the purchase price of the Goods and all other indebtedness of the Buyer to the Seller shall have been paid or satisfied in full (if by cheque then only upon clearance):-

7.1.1. The property in the Goods shall remain vested in the Seller (notwithstanding the delivery of the same and the passing of or in any way change by way of security for any indebtedness any of the Goods which remain the Seller's property and if the Buyer does so all moneys owing by the Buyer to the Seller will forthwith become due and payable without notice being required for the purpose);

7.1.2. The Buyer shall properly store the Goods in such a way that they can be readily identified as being the Seller's property;

7.1.3. The Buyer shall promptly on request from the Seller of the precise location of each item of the Goods identified where applicable by its serial number, by supplying the Seller (at the Buyer's expense within seven days of the Seller's request) with a written schedule of the said locations. Provided that the Goods have not been sold pursuant to Condition

7.1.4. Below until the property in the Goods passes to the Buyer the Seller shall be entitled at any time to require the Buyer to deliver up the Goods to the Seller and, if the Buyer fails to do so immediately, the Seller reserves the right to enter upon any premises where the Goods are stored and to repossess the Goods and to dismantle the same (without being liable for any damage caused by so doing);

7.1.4. The Buyer may sell the Goods as the Seller's agent in the normal course of the Buyer's business (but shall account to the Seller for the proceeds of sale of the Goods and shall keep all such proceeds separate from any other moneys or property) and may pass good title to the Buyer's customer(s) being a bona fide purchaser(s) for value without notice of the Seller's rights on the following Conditions:-

7.1.4.1. The Seller may at any time revoke the Buyer's said power of sale in the circumstances set out in Condition 5 or 11 of these Conditions;

7.1.4.2. The Buyer's power of sale shall automatically cease in any of the circumstances set out in Condition 11 of these Conditions;

7.1.4.3. The Buyer shall notify the Seller without delay of any attachment of the Goods or actions by third parties which might infringe the Seller's title to the Goods;

7.1.5. Upon any revocation or cessation of the Buyer's power of sale pursuant to Conditions 7.1.4.1 or 7.1.4.2 above the Seller shall be entitled by itself, its servants or agents to enter upon any of the Buyer's premises or any other premises for the purpose of removing and repossessing such Goods and the Buyer shall indemnify the Seller forthwith on demand from and against any claims arising from such repossession and for the cost of such repossession;

7.1.5.1. Until the title in the Goods has passed to the Buyer:-

7.1.5.2. The Buyer shall not purport to be the owner of the Goods, shall hold the Goods as the Seller's fiduciary agent and trustee or bailee and shall not show such Goods as stock in its accounts;

7.1.5.3. The Buyer shall insure the Goods (for their full reinstatement value) against theft or any damage howsoever caused until their

price has been paid in full or until their sale whichever shall first occur and the Seller shall be entitled to call for details of the insurance policy to be provided to it;

7.1.5.4. If the Buyer shall not insure the Goods or shall fail to supply details of its insurance policy on demand to the Seller the Buyer shall reimburse the Seller for the cost of any insurance which the Seller may reasonably arrange in respect of any of the Goods during the whole or any part of the period from the date of delivery of the Goods until the date of payment to it of their full purchase price.

7.2. Nothing in these Conditions shall:-

7.2.1. (Subject to Condition 8.7.1 below) entitle the Buyer to return the Goods or to delay payment for the Goods; or

7.2.2. (Other than pursuant to Condition 7.1.6.1 above) constitute or be deemed to have constituted the Buyer as the Seller's agent; or

7.2.3. Render the Seller liable to any third party for any unauthorised representation or warranty made or given by the Buyer to such third party in relation to the Goods; or

7.2.4. Prevent the Seller from maintaining an action for the price of the Goods notwithstanding that the property in the Goods may not have passed to the Buyer.

8. DELIVERY AND RETURNS

8.1. Delivery of the Goods shall be made by the Buyer collecting the Goods at the Seller's premises or, if some other place for delivery is agreed by the Seller in Writing, by the Seller delivering the Goods to that place. To the extent that the place of delivery so agreed is not a Standard Delivery Location, the Seller has the right to increase the quoted or agreed price for the Goods in accordance with Condition 2 above.

8.2. Any delivery date for the Goods which is quoted is given in good faith, but any dates quoted for delivery of the Goods are not guaranteed and the Seller shall not be responsible or liable for any delay or failure in delivery of the Goods howsoever caused. Time for delivery shall not be of the essence and the Seller shall not be liable for any delay in delivery howsoever caused. The Seller may deliver Goods before the agreed or quoted delivery date upon giving the Buyer reasonable notice.

8.3. The Seller shall be entitled to make delivery by instalments (in which case each delivery shall constitute a separate contract between the Seller and the Buyer), and to invoice the Buyer separately for each instalment. Failure by the Seller to deliver any one or more of the instalments in accordance with these Conditions or any claim by the Buyer in respect of any one or more instalments shall not entitle the Buyer to treat the contract as a whole between the Seller and the Buyer as repudiated or terminated.

8.4. Except in the case of delivery at the Seller's premises, the Buyer shall at its own expense use all reasonable endeavours to ensure that the Seller is able to freely access and make any deliveries to any other place for delivery at such time(s) as may be specified by the Seller in Writing. Any failure by the Buyer to comply with the provisions of this Condition or to otherwise accept delivery (save upon such grounds for rejection as are specified in the law relating to the Sale of Goods) or the Buyer failing to give the Seller adequate delivery instructions at the time stated for delivery (otherwise than by reason of any cause beyond the Buyer's reasonable control or by reason of the Seller's fault) shall be deemed to be a breach of contract and then, without prejudice to any other right or remedy available to the Seller, the Seller may:-

i) Store the Goods until actual delivery and charge the Buyer for the reasonable costs (including insurance) of storage; or

ii) Sell the Goods at the best price readily obtainable (after deducting all reasonable storage and selling expenses) account to the Buyer for the excess over the price payable by the Buyer to the Seller for the Goods or charge the Buyer for any shortfall below that price. Any additional costs incurred by the Seller in re-delivering the Goods (either to the originally agreed place for delivery or to such other place as may be reasonably requested by the Buyer) will be charged to the Buyer.

8.5. The quantity of any consignment of Goods as recorded by the Seller upon despatch from the Seller's premises shall be conclusive evidence of the quantity received by the Buyer on delivery unless the Buyer can provide conclusive evidence proving the contrary.

8.6. Notwithstanding the provisions of Condition 8.5, the Seller shall not be liable for any under-delivery of Goods in whole or in part (even if caused by the Seller's negligence) unless the Buyer gives notice in Writing to the Seller of the under-delivery within 48 hours of the date when the Goods are delivered to the Buyer (as recorded by the Seller or, if there is no such record, when the Goods would in the ordinary course of events have been received). Any liability of the Seller for under-delivery of the Goods shall be limited to replacing the Goods within a reasonable time or issuing a credit note at the pro rata contract rate against any invoice raised for such goods.

8.7.1. Subject to Condition 8.7.2 below, within 14 days of the day after the date of delivery of the Goods to the Buyer, the Buyer shall be entitled to cancel the contract between the Seller and the Buyer for the sale and purchase of the Goods, return the Goods in their original packaging and receive a full refund provided that the Goods have not been used in any way, are in the same good condition in which they were received by the Buyer and are returned to the Seller. In such event the Buyer shall be responsible for the costs of returning the Goods in their original packaging and shall indemnify the Seller promptly on demand from and against all and any such costs. If the Seller collects the Goods, the Seller retains the right to charge the Buyer for any direct costs associated with the return of the Goods. No additional re-stocking charge or administrative charge will be added in accordance with Distance Selling Regulations. The Seller's customer service centre can be contacted for an accurate cost of returning goods as costs may vary depending on product specification and location. For more information on the Buyer's right to withdraw from its purchase within the seven working day cooling-off period, the Buyer should please visit the Department of Trade and Industry's website at: <http://www.dti.gov.uk/consumers/buying-selling/distance-selling/index.html>

8.7.2. Subject to Condition 8.7.1 above, any refunds to the Buyer are entirely at the discretion of the Seller. In the event that the Seller, in its sole discretion, grant a refund to the Buyer, any costs incurred by the Seller in procuring that refund shall be borne by the Buyer.

9. WARRANTY

9.1. The Buyer shall lodge with the Seller in Writing within 7 days after delivery of the Goods any claims in respect of defects in such Goods, which are reasonably capable of detection by careful examination. Defects which are not detectable by careful examination within that period shall be notified in Writing by the Buyer as soon as practicable, and in any event no later than:-

9.1.1. 30 days after discovery of the defect; or

9.1.2. 12 months after the date of installation of the Goods, whichever occurs first.

9.2. The Seller shall at its option repair or replace or refund or credit the purchase price of any Goods or part thereof in which proper storage and use defects appear within the time limits set out in Condition 9.1 above which are caused by faulty material or workmanship and if any Goods, during the recommended service life, and if fitted to an application stated in the current catalogue or bulletin of the Seller are found to be defective, the Seller will accept responsibility for damage to other working parts of the Buyer's equipment solely and directly attributed to a manufacturing defect in the Goods, and will restore such working parts to a condition equivalent to the existing condition prior to failure.

PROVIDED THAT:

9.2.1. The defective Goods are returned to the Seller, transportation charges being prepaid by the Buyer;

9.2.2. Examination by the Seller of such Goods shall disclose to its satisfaction that such defects exist and have not been caused by misuse, neglect, accident, improper storage, installation or handling or by repair or alteration not effected by the Seller, and

9.2.3. The Buyer shall afford to the Seller all reasonable facilities to inspect any working parts of the Buyer's equipment which are alleged to have been damaged as a result of defects in the Goods;

9.2.4. The Buyer shall pay to the Seller the cost (as certified by the Seller in Writing) of any examination of the Goods and any relevant working parts where the outcome of the examination is that the Seller is not deemed to be liable for any defect in the Goods or any damage alleged to have been caused by defects in the Goods;

9.2.5. This warranty does not cover faulty installation, misuse, alteration, willful damage, negligence, abnormal working conditions, failure to follow the Seller's instructions (whether oral or in Writing), normal wear and tear or accident, nor will the Seller be liable for any other losses or consequential expenses incurred;

9.2.6. The Buyer shall provide such information regarding the circumstances of the claim as would be reasonably required to assess the validity of the claim. If insufficient information is provided, the Seller shall be entitled, within 7 working days of requesting in detail the additional information needed, and such information not having been received, to reject the claim and return the Goods to the Buyer;

9.3. The foregoing provisions shall be in lieu of any warranties and conditions whether express or implied by statute common law or otherwise howsoever, which warranties and conditions are hereby expressly excluded.

9.4. Save as aforesaid and save in respect of death or personal injury resulting from the negligence of the Seller its servants or agents, the Seller shall not be liable for any claim or claims for direct or indirect consequential or incidental injury loss or damage made by the Buyer against the Seller whether in contract or delict or tort (including negligence on the part of the Seller its servants or agents) arising out of or in connection with any defect in the Goods or any act, omission, neglect or default (whether or not the same constitutes a fundamental breach of the contract between the Buyer and the Seller or breach of a fundamental term thereof) or the Seller its servants or agents in the performance of the contract between the Buyer and the Seller.

9.5. Without prejudice to the generality of the foregoing, nothing herein contained shall operate to exclude any warranty or condition implied by statute in the event of the buyer dealing as a "consumer" as defined by section 12 of the unfair contract terms act 1977. In such a case the Buyer's statutory rights are unaffected by these conditions.

9.6. The Buyer accepts as reasonable and agrees that the Seller's total liability for any defective Goods, and otherwise under the contract between the Seller and the Buyer for the sale and purchase of the Goods shall not in any circumstances exceed 10—0% of the price payable to the Seller for the Goods (excluding VAT). It is accepted by the Buyer and the Seller that in fixing the foregoing overall limit of the Seller's liability in this Condition 9.6 the Seller and the Buyer have had regard to the contract price of the Goods, the nature of the Goods, the use they will receive, and the resources available to each party including insurance cover, to meet any liability.

The Seller shall not be liable to the Buyer or be deemed to be in breach of these Conditions by reason of any delay in performing, or any failure to perform, any of the Seller's obligations in relation to the Goods, if the delay or failure was due to any cause beyond the Seller's reasonable control.

10. HEALTH AND SAFETY

10.1. The Buyer's attention is drawn to the provisions of Section 6 of the Health and Safety at Work Act 1974. The Seller will make available on written request such information on the design and construction of the Goods as is in its possession to ensure that as far as is reasonably practicable the Goods are reasonably safe and without risk to health when properly used.

10.2. Any advice or recommendation which the Seller may give as to the storage, application or use of the Goods and which the Seller does not confirm in Writing is followed or acted upon entirely at the Buyer's own risk and accordingly the Seller shall not be liable for any such advice or recommendation which is not so confirmed.

11. INSOLVENCY AND BREACH OF CONTRACT

In the event of any breach of these Conditions not being remedied by the Buyer within 30 days of the Seller's notice in Writing to the Buyer requesting such remedy or upon the Buyer committing any act of bankruptcy, ceasing to carry on business or entering into any composition or arrangement with or for the benefit of its creditors or the passing of a resolution for the Buyer's winding up, or the Buyer entering into liquidation (whether voluntary or compulsory) or any similar arrangement or a receiver being appointed over the Buyer's assets,

the Seller shall be entitled forthwith (without notice being required for the purpose) and without prejudice to its other rights hereunder to suspend all further deliveries of the Goods and / or to terminate the contract forthwith between the Seller and the Buyer or any unfulfilled part thereof and the Buyer shall then be responsible for any resulting loss to the Seller.

12. INTELLECTUAL PROPERTY

Notwithstanding any implied warranty or condition as to title or otherwise in relation to the Goods supplied under the contract between the Seller and the Buyer, the Seller shall not be liable to indemnify the Buyer in respect of any claim made or threatened against the Buyer by any third party whether by legal proceedings or otherwise based on any intellectual property right claimed (whether registered or not) or breach of confidence unless:-

12.1. The Seller shall have been promptly notified in Writing of the claim or threat and no admissions shall have been made by the Buyer such as would prejudice the defence of any such claim or threat; ;

12.2. The Goods shall have been designed by the Seller or made to its design. In any event the Seller's liability shall be limited to damages and costs awarded by a court of competent jurisdiction in proceedings conducted in accordance with the wishes of the Seller or such sum as may be paid in compromise of such proceedings with the approval of the Seller.

13. MODIFICATIONS

The Buyer shall accept Goods whose specification has been modified since the date of order provided such Goods conform with the order and the modification does not materially affect the performance of the Goods.

14. BUSINESS TO BUSINESS SALES: END OF LIFE OBLIGATIONS

14.1. To the extent that the law permits, the responsibility for and (where not specifically provided for in purchase price) the costs of compliance with the Waste Electrical and Electronic Equipment Regulations 2006 (as amended from time to time) shall rest with the Buyer.

14.2. The Buyer shall indemnify the Seller on demand and keep the Seller indemnified from and against all costs, expenses, damage or other losses incurred or suffered, demands or proceedings made against the Seller arising from a breach by the Buyer of this Condition 14.

15. ASSIGNMENT

The Buyer shall not assign or transfer or purport to assign or transfer any of its rights and/or obligations under any contract between the Seller and the Buyer for the sale and purchase of Goods and/or the benefit of any such contract to any other person whatsoever.

16. SUB CONTRACTS

The Seller reserves the right to sub contract the performance of any of its obligations under the contract between the Seller and the Buyer for the sale and purchase of Goods or any part of any such contract.

17. GENERAL

17.1. Notices

Any notice given under the provisions of any contract between the Seller and the Buyer for the sale and purchase of Goods shall be in Writing and shall be deemed to have been sufficiently served if delivered personally or sent (within the U.K.) by first class post or (outside the U.K.) by airmail and the address of service shall be that shown on the Website or such other address as the relevant party shall notify the other in Writing from time to time. Any notice served by first class post shall be deemed to have been served 48 hours after the date of despatch and any notice served by airmail shall be deemed to have been served 10 days after the date of despatch.

17.2. Waiver

The waiver by the Seller of any breach of any term of any contract between the Seller and the Buyer for the sale and purchase of Goods shall not prevent the subsequent enforcement of that term and shall not be deemed a waiver of any subsequent breach.

17.3. Severance

Each of the Buyer's obligations under these Conditions shall be a separate and independent obligation.

17.4. Headings for convenience only

The headings in these Conditions are for convenience of reference only and shall not affect their interpretation.

17.5. Third Party Rights

No person other than a party to any contract between the Seller and the Buyer for the sale and purchase of Goods shall have any rights to enforce any term of such contract.

17.6. Variation

17.6.1. Any variation, (including, without limitation, the introduction of any additional terms and conditions) to these Conditions, shall only be binding when agreed in Writing and signed by an authorised representative of the Seller.

17.6.2. The Seller may vary these Conditions from time to time in its sole discretion. Any such variations will be posted on the Seller's Website and notified to the Buyer in Writing and the Buyer will be deemed to have accepted any and all such variations if it continues to order Goods from the Seller after the date of such notice.

17.7. Governing Law

Any contract for the sale and purchase of Goods between the Seller and the Buyer (which contract shall incorporate these Conditions) shall be governed by and construed in accordance with English Law and the parties shall submit to the non-exclusive jurisdiction of the English Courts.

17.8. Miscellaneous

17.8.1. All rights and remedies expressly reserved by the Seller in these Conditions are without prejudice to any other right or remedy

available to the Seller.

17.8.2. Where rights and decisions in these Conditions are to be exercised or made at the sole discretion or discretion of the Seller then the Seller shall be under no duty or obligation to justify or provide a reason to the Buyer for the decision.

17.8.3. The Seller's agents or employees are not authorised to make any representations concerning the Goods unless confirmed by the Seller in Writing. Entering into a contract with the Seller for the sale and purchase of Goods the Buyer acknowledges and agrees that it does not rely on, and waives any claim for breach of, any such representations which are not so confirmed.

17.8.4. The Seller reserves the right to change and improve the design of some or all of the component parts of its products and undertakes that any such changes will not materially and adversely affect the purpose for which the Goods were to be supplied.

17.8.5. All estimates, drawings, designs, plan or models the Supplier may prepare for the Buyer's information remain the Seller's property and are subject to the Seller's copyright and other intellectual property rights. They must not in whole or in part be submitted to or copied or otherwise made use of by any other party.

17.8.6. If any provision of these Conditions is held by any competent authority to be invalid or unenforceable in whole or in part, the validity of the other provisions of these Conditions and the remainder of the provision in question shall not be affected thereby and shall remain in full force and effect.

17.8.7. The Buyer will not use any of the Seller's intellectual property rights in connection with any product or service in any manner that is likely to cause confusion among customers, or in any manner that disparages or discredits the Seller, without the Seller's prior written consent.

17.8.8. The Buyer agrees to the Seller collecting and using such details (including, without limitation, Personal Data as defined in the Data Protection Act 1998) as the Buyer provides to the Seller for such purposes as are necessary in the Seller's sole discretion for the Seller to comply with its obligations under these Conditions. The Seller may have to pass the Buyer's details (including, without limitation, Personal Data as defined in the Data Protection Act 1998) on to responsible third parties for the same purpose. The Seller shall not be responsible for any breach of security or any act or omission of third parties who receive the Buyer's details (including, without limitation, Personal Data as defined in the Data Protection Act 1998).

17.8.9. The Buyer must be over 18 to buy a knife or blade. By placing an order with the Seller the Buyer declares and warrants that he or she is over 18 years of age. Additional checks may be made to confirm the Buyer's age to prevent the sale of weapons to minors.

17.8.10. The Seller may perform any of its obligations or exercise any of its rights under these Conditions by itself or otherwise or appoint through any other persons (legal or otherwise) or entities whomsoever.

17.8.11. The contract between the Seller and the Buyer for the sale and purchase of the Goods (incorporating these Conditions) shall constitute the entire agreement and understanding between the Seller and the Buyer in respect of the sale and purchase of such Goods and shall supersede all previous oral or written representations or agreements relating thereto.

17.8.12. The Seller may freely assign its rights and/or obligations under these Conditions and/or sub-contract the whole, or any part of its obligations under these Conditions to any other person (legal or otherwise) or entity whomsoever.

17.8.13. WEEE regulations (January 2007) ensure that the amount of waste on certain electrical and electronic equipment is reduced, separately from household waste, collected separately and ultimately disposed of in a sound environmental manner (recycled and recovered). If the Buyer is a trade customer, the Buyer agrees that the collection, recovery/treatment and disposal of non-household Electrical or Electronic Equipment purchased from the Seller will be the Buyer's responsibility. In the case of household waste the Buyer should please take this waste to the Buyer's nearest Designated Collection Facility (DCF) where special facilities exist for correct disposal. To find its nearest Designated Collection Facility please can the Buyer visit the following web site: www.recycle-more.co.uk.

18 INTERPRETATION

In these Conditions the following words and expressions have the following meanings:-

"Acceptance" has the meaning set out in Condition 1.1;

"Buyer" means the individual, organisation, company or entity whose offer for the Goods is accepted by the Seller;

"Conditions" means the Seller's standard terms and conditions of sale, as set out herein, together with any future amendments, modifications and/or revisions thereto;

"Goods" means the goods (including any instalment or part of them) which the Seller is to supply to the Buyer in accordance with these Conditions (which Goods shall be shown on the Seller's Website, in the Sellers Catalogue or on the sales order acknowledgement document in respect of the Goods issued by the Seller to the Buyer);

"Online Order" means an order for Goods from the Buyer submitted to the Seller through the Seller's Website by completion of the staged ordering process set out therein through submission of forms and following a series of hypertext links as directed on the Seller's Website;

"Online Order Confirmation" means confirmation in Writing by the Seller of acceptance of an Online Order issued prior to the supply of the Goods to the Buyer;

"Seller" means Your Electrical Supplies, Service & Solutions (B) Ltd (company number 07650325);

"Seller's Website" means the website published by the Seller on the World Wide Web of the Internet with the uniform resource locator <http://www.yesss.co.uk>, or such other uniform resource locator as the Seller may sell Goods on from time to time.

"Standard Delivery Location" has the meaning ascribed to it in Condition 2;

"Writing" includes electronic mail and, facsimile transmission.
